---

SUMMARY

Experienced Front-End Developer with 3 years of experience in building and deploying robust web applications. Skilled in **Vue.js**, **Laravel**, **WordPress**, and **Cypress** to create dynamic, scalable, and user-centered solutions. Adept at front-end and back-end development, focusing on delivering high-quality applications and seamless user experiences.

SKILLS

- HTML, CSS, Bootstrap, WordPress, Vue.js.
- **Laravel**, PHP, MySQL
- Version Control (Git), Agile Methodologies
- Unit Testing & Automation: Cypress (for UI testing), Unit Testing (Vitest)

EXPERIENCE

Avow ESolutions(CargoEZ) Chennai - 2021-Present
Software Developer

- Designed and implemented responsive user interfaces using HTML, CSS, and JavaScript, ensuring accessibility and cross-browser compatibility.

- Collaborated with back-end developers to integrate front-end code with server-side logic.

- Developed responsive websites using **Laravel PHP** and **Vue.js**, including form and database integration for **air7seas.com** and **cargoez.com**.

- Designed and executed test cases and scripts for various scenarios, performing both manual and automated testing using **Cypress**.

- Maintained documentation for traceability and proposed process improvements. Conducted thorough testing of web and mobile applications for **cargoez.com** to ensure functionality and performance.

PROJECTS

Project 1:

Project Name: CARGOEZ - Cloud-based Freight Forwarding Software

Duration: 2024 - Present

Role: Developer

Technologies: Vue.js, Vitest

Description:

- Developed a comprehensive freight forwarding platform, and implemented unit testing using vitest.
- Conducted automated tests using **Cypress** to ensure that the platform performed reliably across browsers and devices.
